Answers and detailed answer explanations for these problems

1
of 6

Label the parts of a radical expression.

Answer key: 1: index // 2: radical // 3: radicand

The small number is called the index. It indicates which root is being taken. It is equal to two in the case of a square root.

The boxy shape that looks a bit like a check mark is called the radical.

The large number, inside the radical, is called the radicand.
